

KS3

Catch up plans:

Evidence of learning will be through verbal and written questioning / explanations/ quizzes.

Support:

Access to online resources such as bbc bitesize and Oaks National Academy.

Contingency plan:

All students have been added to the google classroom relevant to their year group. All resources including teacher presentations have been uploaded. The units to be studied up to Christmas have been identified on the document to be shared with parents. If there is a year group bubble closure, we can switch to live lessons and the students can access all the resources from home. Assessments can be converted to a google quiz

Issue

KS4 GCSE Computer Science Year 11 & 10

Catch up plan

All topics covered in lockdown have been RAG rated and pupils have shared their responses. First few weeks will be used to revisit topics from lock down.

Evidence of learning will be through verbal and written questioning / explanations/ quizzes and summative assessments.

Lesson starters will be a low risk assessment based on previous topics

Homework will include interleaving previous topics through past paper questions, creating revision resources and google quizzes.

Support

Access to online resources such as bbc bitesize and teacher ICT

Purchase of KS4 revision guides and workbooks so targeted revision can be set for pupils to do at home.

Purchase of textbooks for targeted students.

Access to room and pc and webcam for live lessons.

Time / slots for after school revision.

Craig N Dave Smart Revise - individual revision resource

Revision activities suggested per topic

Craig N Dave online resources

Contingency plan:

All students can access Google Classroom which has all the resources required.

If students need to isolate, all powerpoints and worksheets will be accessible. In the event of a year group isolating we will switch to live lessons for pupils but resources will still be accessed via the google classrooms.

Assessments can be completed through Google Classroom
